Technology Safety Rules

The following safety rules are to be followed by each student. These rules are designed to keep a safe working environment for each and every student. Always remember, the actions of one may cause injury to others.

General Safety Rules:

1. All students are required to wear **safety glasses** in the lab at all times as required by New York State Law.
2. Students must wear appropriate clothing (no jewelry, no baggy clothes, no sandals, etc.)
3. Running, pushing and/or play fighting are not permitted.
4. Students may not use any tool or machine unless given the instructors permission.
5. Do not wipe off tables with your bare hands.
6. All students waiting to use a machine must stand behind the yellow and black safety line or at least three feet away from person using the machine.
7. Never walk with the sharp end of a tool facing other people.
8. No loud noises, such as yelling or screaming.
9. Return all tools to their proper locations. (tool box or tool board)
10. Close all vises located on the lab tables.
11. Place all scrap wood into their proper containers.
12. Do not remove or change any blade guards.
13. Do not toss or throw anything.
14. Use the proper tool for the task.
15. Remain focused on the task at hand.
16. Always remember the ABC rule, **ALWAYS BE CAREFUL**

Penalties for not following the safety rules will be: "Time Out" of lab time, phone call home and or detention. Each of these actions will result in a deduction of five points from your effort grade in class.

Please leave this section attached. DO NOT TEAR OR CUT-OFF!
